Inventor : Yuji Yagi, et al.
Title : **A CIRCUIT BOARD HAVING SIMULTANEOUSLY AND UNITARILY
FORMED WIRING PATTERNS AND PROTRUSIONS**

Re: Request for Certificate of Correction

Consideration has been given your request for the issuance of a certificate of correction, for the above-identified patent under the provision of Rule 1.322 or R 1.323.

Respecting the alleged error, according to MPEP 1481, a Certificate of Correction can be used to correct an applicant's "mistake" in a patent. However, the first statutory requirement concerns the nature, i.e. type, of the mistake for which correction is sought. The mistake must be (1) of a clerical nature. (2) of a typographical nature, or (3) a mistake of minor character. The changes re-submitted on 5/8/2008 do not fit either of these types of mistakes. They all impose further limitations into the claims, and thus have not been approved for entry. Therefore; no correction(s) is in order here under United States Codes (U.S.C.) 254 or 255 the Code of Federal Regulation (C.F.R.) R 1.322 R 1.323.

In view of the foregoing, your request is hereby denied.

Further correspondence concerning this matter should be filed and directed to Decisions and Certificates of Correction Branch. Any response must be filed within a four week period.
